

Super Sidewalk Chalk Paint!

Ingredients:

¼ cup of water

¼ cup of corn starch

Splash of tempera paint*

In small containers (we used plastic drinking cups) thoroughly mix all the ingredients together. Consistency and colour strength can be adjusted to your desire. Apply to sidewalk with paintbrushes of various sizes.

*Although tempera paint is not permanent and these designs will wash off, we have found that they do have some staying power. This activity is best suited for areas that can stay colourful for a long time!

Don't miss our **Art Attack** program,
an outdoor art experience for kids ages 6-12!

Wednesday to Friday, 1:30-2:45

\$5 per child

Call **705 457 2330** or email info@railsendgallery.com for details on our activities.
